

Building Self-Deployable Community Networks

Senthilkumar M
Co-Founder, Geomeo Informatics

Agenda

- Community Network in India
- Problem in setting up community network in rural
- Self deployable Community network
- Impact of community network

Problem in Rural India

- Lack of power supply
- Unforeseen natural & man-made interferences
- Cost of site-acquisition
- Low bandwidth backhaul network
- Complexity that accompanies wider coverage
- Economic unaffordability of the community and
- Difficulty in accessibility for maintenance
